So the character is generated wrong in the source file or is it only displayed wrong?

The following article covers a topic that has recently moved to center stage–at least it seems that way. If you've been thinking you need to know more about unconditional love, here's your opportunity.

When darkness turns to day, the sun moves over the horizon and touches everything in sight. This movement across the landscape brightens everything. Such an illumination awakens us all. We rise with energy moving in and through us allowing us to create a new day. A day unique from all the rest and creatively woven into our soul. This is the landscape of our soul. As you can see, nature has a way of showing us just how powerful we are. The same power that created the moon and the stars and the movement of all space and time lies within the human heart.

Hi Harm, the character is generated wrong in the source file. Best regards, Flav… — 07-09-2010 | 12:43 | Flavio da Costa

Ah, then I know what it is. We'll prepare a fix for you momentarily. — 06-09-2010 | 10:23 | Harm Wibier

That fixed it, thanks! Also thanks for the speedy assistance! Take care. — 07-09-2010 | 12:43 | Flavio da Costa

Hi Flavio, please download the attached source file. — 26-08-2010 | 11:34 | Support DAE

I saw Drake for our bi-full-moonly checkup. He was depressed, as usual. He accidentally killed his mortal girlfriend again. After reading Twilight he has been facinated with mortal women. Unfortunately he refuses to believe that it is a work of fiction. Those relationships simply suck ...er, don't work out for anyone. He also is now always picking fights with Ralf.
He came in with another 7th degree sunburn. He keeps trying to sparkle in the sun. Poor messed up kid. He was burnt from the waist up on both the front and back of his body. I applied unicorn sweat and dragon tears - which don't do anything, but they cost a lot. Drake and his family are loaded, so who cares right? He still hasn't realized that he regenerates on his own and doesn't need a doctor, but hey, I'm not gonna tell him.
I gave him a prescription to Domerthanasomby and told him to take it twice a day with pigs blood while standing on one foot on top of a tall tree as an eagle flies below him. Man I love my job.
